# DOMS TELECENTRIC excite

The DOMS TELECENTRIC excite meets the high quality standards imposed by the DOMS philosophy:

- Solid construction
- Components of best quality
- Precise processing – down to the last detail
- Ergonomic design with useful functional characteristics

Distinctive design and fresh trendy colours!  
This is the DOMS TELECENTRIC excite

The future belongs to products which are not only functional, but whose mere handling is an excitement.

Designing matured technology and know how in a modern way, this is the focus of the latest product conception by doms. This is realized by linear design and dimensions absolutely reduced to an acceptable minimum.

DOMS TELECENTRIC excite – the further development of the classic DOMS TELECENTRIC is the professional sliding table unit by DOMS – a system solution reducing your work load considerably.

Annexe desk, 1600x800mm, rounded S-design  
Standard size desktop or individual design incorporating customer's wishes  
Extensive colour selection according to RAL colour card, also Multiplex „beech“ or real wood veneer. For maximum workload with minimal maintenance there are mineral substances (Natural Acrylic Stone) of well known manufacturers.
